ELK Stack

Clean Code Principles

Architectural Patterns

Microservices

### Tools

- Visual Studio
- Docker
- SSMS
- Postman/Swagger
- Kibana
- Git and GitHub
- xUnit
- Polly

With Over 5 Years Of Professional Experience Developing Robust Backend Solutions And Optimizing Performance, I Excel In Collaborative Environments, Working Closely With Cross-Functional Teams Including Technology, Business, And Design Stakeholders To Ensure Seamless Integration And Functionality Of Backend Systems. My Skill Set Includes Project Management, Where I Adeptly Coordinate Resources, Timelines, And Deliverables To Meet Project Objectives Efficiently. As A Product Owner, I Bring A Unique Blend Of Technical Acumen And Strategic Foresight, Representing The Customer's Needs And Guiding The Development Team Towards Building Products That Align With Business Objectives And User Expectations. My Approach Combines A Deep Understanding Of The Business Context, Ruthless Prioritization Of Features, And A User-Centric Mindset, Ensuring That Every Feature We Build Adds Value And Moves Us Closer To Our Goals.

## Front-End Developer

### • Freelance,Jan 2017 – May 2019

- As a freelance Frontend Developer from 2017 to 2019, I undertook several projects to gain valuable experience in the field.

## Back-End Developer

### • MyData Company,Feb 2020 – Present

- At MyData Company, from February 2020 to present, I've been instrumental in enhancing the BPMS engine as a Backend Developer. Over the four years, I've successfully built, maintained, and developed BPMS Core, contributing to significant improvements in system efficiency and user experience.

## Product Owner

### • MyData Company, June 2022 – Present

- As a Product Owner for CRM (Customer Relationship Management), my primary role is to oversee the development and enhancement of CRM software solutions that optimize customer interactions and streamline business processes. I collaborate closely with stakeholders to understand their needs and translate them into user stories and product features.

## Mentor

### • MyData Company, Aug 2022 – Jan 2023

- At MyData Company, from Aug 2022 to Jan 2023, I've served as a Mentor , guiding junior colleagues in C# programming and SQL Server database management. I've curated comprehensive training materials and conducted regular coaching sessions to support their growth and proficiency in these areas

## Education & Learning

### Islamic Azad University

Bachelor's degree, Computer Software Engineering,  
Sep 2017 – Sep 2021

### Mofateh high school

Diploma (PGD) in Mathematics & Physics

### Nikamooz

- ASP Core and DDD Design

### Bugeto

- Microservice

### Quera

- [Python-Django](#)

### Frontendmasters

- Angular 17+ Fundamentals

### Pluralsight

- EF Core 8

### Coursera

- Google Data Analytics Professional

### Jdisf

- Web Design

### Devtube

- Web API and DDD
